EXAMPLE PROJECT

Created the website the nationwide granite industry uses to find and rate sink drawings with over 200 registered users since May 31st, 2019:
<https://www.silicatewastes.com/>

PROGRAMMING SKILLS

- Strong: C++, C, Data Structures, Python
- Novice: Flask, Java, Spring, SQL, html, css, Bootstrap, cgi bash scripting, git

WORK HISTORY:

Hallmark Stone - CNC Programmer St. Louis, MO 2013-present

-Draw and make machine programs using AlphaCAM for Northwood milling CNC and sawjet.
-Figured out how to program machines, trained everyone else. Came up with procedures everyone uses to eliminate mistakes.

Architectural Tile & Stone - CNC Programmer Austin, TX 2010-2012

-Sole CNC Programmer/Operator for Park Industries Titan 1600. Digitized all templates, drew and programmed everything, set it all up and ran it myself.
-Fast, versatile, never made mistakes.
-Came up with new techniques for custom edges and machining 3D shapes.

Marble & Granite Worldwide- - CNC Programmer St. Louis, MO 2006-2009

-Z. Bavelloni CNC Programmer: trained other operators.

Artisan Marble & Granite - CNC Programmer, Hand polisher 2004-2006

-Programmed and operated a Z. Bavelloni CNC.
-Polished edges by hand and used a hand grinder to put in rods.

Marble & Granite Resources - CNC Operator 2003-2004

-Independently learned and operated Z. Bavelloni CNC's.

Schnuck's Markets - Clerk 1997-2003

-clerk

EDUCATION

Webster Groves High School -1997
Launchcode LC101 - 2019

SHOP SKILLS

- CNC: Top-notch AlphaCAM skills. (as far as my industry is concerned) Can draw or machine anything. Understand tangent lines, smooth curve transition, geometric concepts. Z-countour roughing, 3-D projects. Can machine any edge with just a calibrator. Drainboards.
- TOOLS: Can set up tools, dress them, adjust them, keep profiles shiny.
- SAWJET: Fast at layouts and programs. Save a lot of material.

AVAILABILITY

Might need a few weeks to train a replacement.
